## CRUSHED STONE AND SAND AND GRAVEL IN THE FIRST QUARTER 2020

An estimated 291 million metric tons (Mt) of *crushed stone* was produced and shipped for consumption in the United States in the first quarter of 2020, a slight increase compared with that of the same period of 2019 (table 1).

The estimated U.S. output of *construction sand and gravel* produced and shipped for consumption in the first quarter of 2020 was 173 Mt, an increase of 6% compared with that of the same period of 2019 (table 3).

The estimated U.S. output of *construction aggregates* produced and shipped for consumption in the first quarter of 2020 was 464 Mt, an increase of 3% compared with that of the same period of 2019 (table 5).

The above estimates are based on information reported to the U.S. Geological Survey (USGS) on its quarterly sample survey by *construction aggregates* producers.

Shipments of portland and blended cement increased by 8% in the first quarter of 2020 compared with that in the first quarter of 2019. This information was obtained from the USGS monthly survey of U.S. cement producers.

The quarterly sample survey generates production-for-consumption estimates by quarters, based on information reported voluntarily by a limited number of producing companies. In most quarters, a few companies may report amounts sold in the current quarter that differ greatly from the amounts reported in the previous year during the same quarter. This change in sales is almost never an indicator of the change in the demand in the State as a whole. The reason for a large change can be the opening or closing of an operation, weather, or an external force that only the company or one of its operations experienced in that quarter. Previously reported data are occasionally revised, and the estimated quantities for the prior quarters are then recalculated. The latest release of the quarterly Mineral Industry Surveys contains the most recent estimated totals and supersedes previously published reports.

The estimated production-for-consumption of *crushed stone*

in the first quarter of 2020 increased in six of the nine geographic divisions compared with that sold or used in the first quarter of 2019. Production-for-consumption increased in 32 of the 45 States for which estimates were made. The five leading States were, in descending order of production-for-consumption, Texas, Florida, Pennsylvania, North Carolina, and Georgia. Their combined total production-for-consumption was 103 Mt and decreased slightly when compared with that of the same period of 2019.

The estimated production-for-consumption of *construction sand and gravel* in the first quarter of 2020 increased from that of first quarter 2019 in seven of the nine geographic divisions. Production-for-consumption increased in 29 of the 45 States for which estimates were made. The five leading States were, in descending order of production-for-consumption, Texas, California, Arizona, Washington, and Florida. Their combined total production-for-consumption was 69.6 Mt and increased by 3% when compared with that of the same period of 2019.

The estimated production-for-consumption of *construction aggregates* in the first quarter of 2020 increased in six of the nine geographic divisions compared with that sold or used in the first quarter of 2019. Production-for-consumption increased in 31 of the 41 States that were estimated. The five leading States were, in descending order of production-for-consumption, Texas, California, Florida, Arizona, and Pennsylvania. Their combined total production-for-consumption was 155 Mt and increased by 5% when compared with that of the same period of 2019.

*List services and web feed subscribers are the first to receive notification of USGS minerals information publications and data releases. For more information on how to subscribe, go to <https://www.usgs.gov/centers/nmic/minerals-information-publication-list-services>.*

Total <sup>5</sup>	286,000	414,000	451,000	360,000	1,510,000	18,400,000	291,000	1.6

<sup>1</sup>Quarterly totals shown are estimates based on a sample survey. Estimated quantities for prior quarters have been recalculated.

<sup>2</sup>Data may not add to totals shown because of independent rounding and differences between projected totals by States and by divisions.

<sup>3</sup>Sales region equivalent to U.S. Census Bureau Geographic Division as follows: New England (CT, MA, ME, NH, RI, VT); Middle Atlantic (NJ, NY, PA); East North Central (IL, IN, MI, OH, WI); West North Central (IA, KS, MN, MO, NE, ND, SD); South Atlantic (DE, FL, GA, MD, NC, SC, VA, WV); East South Central (AL, KY, MS, TN); West South Central (AR, LA, OK, TX); Mountain (AZ, CO, ID, MT, NM, NV, UT, WY); Pacific (CA, OR, WA).

<sup>4</sup>Compared with same period of preceding year; all percentages are calculated using unrounded totals.

<sup>5</sup>Includes all 50 States.
