## CRUSHED STONE AND SAND AND GRAVEL IN THE FIRST QUARTER 2022

The U.S. total for 2019 was revised using full year sales data provided by the companies. Estimates for 2020 and 2021 were recalculated using the revised total for 2019. The revised U.S. total of *crushed stone* was 1.45 billion metric tons (Gt). Estimates for the 2020 and 2021 U.S. totals were 1.44 Gt and 1.50 Gt, respectively.

An estimated 291 million metric tons (Mt) of *crushed stone* was produced and shipped for consumption in the United States in the first quarter of 2022, an increase of 3.5% compared with that of the same period of 2021 (table 1).

The revised U.S. total of *construction sand and gravel* was 918 Mt. Estimates for the 2020 and 2021 U.S. totals were 926 Mt and 981 Mt, respectively.

The estimated U.S. output of *construction sand and gravel* produced and shipped for consumption in the first quarter of 2022 was 185 Mt, an increase of 5.2% compared with that of the same period of 2021 (table 3).

The estimated U.S. output of *construction aggregates* produced and shipped for consumption in the first quarter of 2022 was 476 Mt, an increase of 4.1% compared with that of the same period of 2021 (table 5).

The above estimates are based on information reported to the U.S. Geological Survey (USGS) on its quarterly sample survey by *construction aggregates* producers.

Shipments of portland and blended cement increased by 5.9% in the first quarter of 2022 compared with the first quarter of 2021. This information was obtained from the USGS monthly survey of U.S. cement producers.

The quarterly sample survey generates production-for-consumption estimates by quarters, based on information reported voluntarily by a limited number of producing companies. Previously reported data are occasionally revised, and the estimated quantities for the prior quarters are then recalculated. The latest release of the quarterly Mineral Industry Surveys contains the most recent estimated totals and supersedes previously published reports.

The estimated production-for-consumption of *crushed stone* in the first quarter of 2022 increased in five of the nine geographic divisions compared with that sold or used in the first

quarter of 2021. Production-for-consumption increased in 29 of the 45 States for which estimates were made. The five leading States were, in descending order of production-for-consumption, Texas, Florida, Missouri, Georgia, and Pennsylvania. Their combined total production-for-consumption was 111 Mt, an increase of 6.6% compared with that of the same period of 2021.

The estimated production-for-consumption of *construction sand and gravel* in the first quarter of 2022 increased from that of first quarter 2021 in five of the nine geographic divisions. Production-for-consumption increased in 27 of the 45 States for which estimates were made. The five leading States were, in descending order of production-for-consumption, California, Texas, Arizona, Utah, and Washington. Their combined total production-for-consumption was 76.9 Mt and increased by 8.1% when compared with that of the same period of 2021.

The estimated production-for-consumption of *construction aggregates* in the first quarter of 2022 increased in four of the nine geographic divisions compared with that sold or used in the first quarter of 2021. Production-for-consumption increased in 25 of the 42 States that were estimated. The five leading States were, in descending order of production-for-consumption, Texas, California, Florida, Missouri, and Arizona. Their combined total production-for-consumption was 169 Mt and increased by 10.5% when compared with that of the same period of 2021.

West:								
Mountain	12,900	17,700	19,000	16,300	73,600	708,000	12,400	-3.9
Pacific	17,100	21,700	23,100	19,800	81,600	951,000	19,500	14.1
Total <sup>5</sup>	281,000	405,000	425,000	386,000	1,500,000	19,600,000	291,000	3.5

<sup>1</sup>Quarterly totals shown are estimates based on a sample survey. Estimated quantities for prior quarters have been recalculated.

<sup>2</sup>Data may not add to totals shown because of independent rounding and differences between projected totals by States and by divisions.

<sup>3</sup>Sales region equivalent to U.S. Census Bureau Geographic Division as follows: New England (CT, MA, ME, NH, RI, VT); Middle Atlantic (NJ, NY, PA); East North Central (IL, IN, MI, OH, WI); West North Central (IA, KS, MN, MO, NE, ND, SD); South Atlantic (DE, FL, GA, MD, NC, SC, VA, WV); East South Central (AL, KY, MS, TN); West South Central (AR, LA, OK, TX); Mountain (AZ, CO, ID, MT, NM, NV, UT, WY); Pacific (CA, OR, WA).

<sup>4</sup>Compared with same period of preceding year; all percentages are calculated using unrounded totals.

<sup>5</sup>Includes all 50 States.
