CEMENT IN FEBRUARY 2020

This report provides monthly data on the shipments of cement to final customers and the production of clinker in the United States from January 2019 through February 2020. Data on the imports of cement and clinker for February 2020 also are provided.

Total shipments of portland and blended cement, including imports, in the United States and Puerto Rico in February 2020 were 6.4 million metric tons (Mt), an increase of 13% from shipments in February 2019 (tables 2A and 2B). Shipments for the year through February totaled 13.3 Mt, an increase of 9.9% from those for the same period in 2019. The leading producing States for portland and blended cement in February 2020 were, in descending order, Texas, California, Missouri, Florida, and Alabama (table 1A). The leading cement-consuming States (Texas, California, Florida, Arizona, and Georgia) received 49% of February shipments (tables 2A and 2B).

Masonry cement shipments totaled 163,000 metric tons (t) in February 2020, a slight increase from those in February 2019 (table 2C). Shipments for the year through February totaled 353,000 t, essentially unchanged from those for the same period in 2019. The leading masonry-cement-consuming States in February 2020 were, in descending order, Florida, Texas, California, North Carolina, and Georgia; these States received 61% of February shipments (table 2C).

Clinker production, excluding Puerto Rico, totaled 5.0 Mt in February 2020, an increase of 8.6% from production in February

2019 (table 4). Production for the year through February totaled 10.6 Mt, an increase of 7.6% from the same period in 2019. The leading clinker-producing States in February 2020 were, in descending order, Texas, California, Florida, Alabama, and Missouri.

Tables 5, 6, and 7 list import data from the U.S. Census Bureau; however, data for clinker imports into the Seattle, WA, and the Detroit, MI, customs districts do not include material trucked in from Canada on an informal-entry basis. Likewise, reported imports of cement into the El Paso, TX, district may be missing significant informal entries from Mexico. Monthly imports can show significant year-over-year changes for a variety of reasons and commonly do not correlate well with consumption levels in the respective import districts in the same month. February 2020 imports of cement and clinker totaled 1.1 Mt, an increase of 40% from imports in February 2019. Imports for the year through February totaled 2.1 Mt, an increase of 24% from those for the same period in 2019.
