COBALT IN JUNE 2003

U.S. consumption of cobalt during January through June 2003 was nearly equal in amount to consumption during the first half of 2002, according to the U.S. Geological Survey. The cobalt content of U.S. imports of cobalt metals and chemicals was 19% lower in January through May 2003 than that of imports during the same period in 2002. The cobalt content of U.S. exports of unwrought cobalt and chemicals was 30% higher in January through May 2003 than that during the same period in 2002. Trade data for June 2003 will be available in a subsequent issue.
