

## MINERAL INDUSTRY SURVEYS

UNITED STATES DEPARTMENT OF THE INTERIOR  
BUREAU OF MINES

DOUGLAS MCKAY, Secretary

THOS. H. MILLER, Deputy Director

Iron and Steel Scrap  
Monthly Report No. 180

### IRON AND STEEL SCRAP IN OCTOBER 1955

Steel production during October, an all time high, reflected a record use of ferrous materials (scrap and pig iron), according to the Bureau of Mines, United States Department of the Interior. The use of scrap in steel furnaces (open-hearth, Bessemer and electric) totaled 4,919,190 gross tons, increasing 7 percent over September; pig iron consumption 5,452,210 tons, increased 5 percent over September, to establish a new high for the use of this commodity during any month in steel-making furnaces. The total steel-furnace melt (10,371,400 gross tons) of scrap and pig iron increased 6 percent over September to reach the largest quantity of these materials used during any month and consisted of 47 percent scrap and 53 percent pig iron. Electric furnaces used 820,642 tons of scrap during October, an increase of 9 percent.

Consumption of scrap and pig iron for all purposes totaled 12,636,861 gross tons, an increase of 6 percent over September, and a new record high. The total charge of these materials consisted of 51 percent scrap and 49 percent pig iron, unchanged from September. Scrap consumption totaled 6,443,349 tons, an increase of 6 percent over the previous month; pig iron consumption set a record high in totaling 6,193,512 tons, an increase of 5 percent over September. The daily consumption rate of ferrous materials in October (407,641 gross tons) was 5 percent higher than the previous month.

Table 1 - Summary of production, receipts, consumption and consumers' stocks of iron and steel scrap and pig iron, May 1955 to October 1955, in gross tons

1/ Suppliers' stocks included with consumers' stocks.

2/ Excludes 230,733 gross tons of scrap shipped, transferred or otherwise disposed of during month.

Prepared by James E. Larkin and James C.O. Harris, December 29, 1955, under the supervision of Hubert W. Davis, Acting Chief, Branch of Ferrous Metals and Ferroalloys, Division of Minerals.

**MINERALS SURVEY**

Stocks of ferrous materials (scrap and pig iron) held by consumers at the end of October totaled 8,755,601 gross tons, a slight decrease from the previous month. Stocks of scrap at the end of October totaled 6,593,899 tons, a slight increase over the previous month, and a record high for stocks of scrap held by consumers. Pig iron stocks totaled 2,161,702 tons, a decrease of 3 percent from the previous month.

The use of scrap by gray iron foundries during October totaled 944,685 gross tons, compared with 1,881,158 tons during September. Pig iron consumed by this industry totaled 470,610 gross tons, compared with 445,099 tons during the previous month.

Total scrap for consumption (Home scrap produced plus purchased scrap received) totaled 6,471,078 gross tons during October, compared with 6,059,251 tons in September; home scrap accounted for 3,573,364 tons and purchased 2,897,714 tons. Of the total purchases, 183 percent was received from dealers and 17 percent from other sources. Receipts of purchased scrap is a net figure computed by deducting consumers' scrap from the amount shipped, transferred or otherwise disposed of during the month from total scrap received, received from dealers and all others.

**Table 21. Scrap produced and received during October, and stocks at consumers' plants October 31, 1955, in gross tons**

Description	Home Scrap Produced	Scrap received		Scrap Stocks Oct. 31
		From Dealers	From Others	
No. 1 heavy melting steel	1,405,103	442,603	101,099	1,714,158
No. 2 heavy melting steel	184,213	378,974	45,710	101,901,555
Bundles	100,041	606,213	138,521	11,040,771
Low phosphorous scrap	130,615	251,897	26,398	10,408,684
Cast iron scrap, other than bearings	585,569	375,114	61,837	919,103
Turnings and/or borings, alloy free	45,105	213,117	40,297	220,853
Rerolling rails	1,313	35,477	27,542	168,825

#### DEALERS AND BROKERS

Data on shipments and stocks of iron and steel scrap for October 1955 were submitted on a voluntary basis by 595 dealers which represented approximately 30 percent of those that reported during January 1955. Based on data reported by 586 identical dealers during these two periods, shipments and stocks of iron and steel scrap in October 1955, increased 12 percent and 76 percent, respectively, over those in January 1955.

Table 5 - Reported 1/ shipments and stocks of iron and steel scrap on hand at dealers' and automobile wreckers yards October 1955, in gross tons

Total (all grades)	666,344	762,709

1/ Reported by a combined total of 595 dealers and automobile wreckers.

CONSUMPTION OF SCRAP IRON AND STEEL AND PIG IRON

Consumption of scrap in October totaled 6,443,349 gross tons which was at an average daily rate of 207,850 tons or 38 percent greater than for the year 1954.

In October, open-hearth furnaces used 63 percent of the total scrap, and 82 percent of the pig iron, the same percentages as in September; electric furnaces in October used 7 percent of the ferrous materials (scrap and pig iron) charged to all furnaces, with open-hearth using 72 percent. During 1954, these percentages were 6 and 73, respectively. Blast furnaces used 6 percent of the total scrap; the corresponding percentage for the year 1954 was 6.

During October, steel-making furnaces (open-hearth, Bessemer and electric) accounted for 76 percent of the total scrap, and 88 percent of the pig iron consumed, the same percentages as during September. In 1954, steel-making furnaces used 75 percent of the total scrap, and 88 percent of the pig iron. The remainder was used in iron-making furnaces, principally the cupola. Consumption by type of furnace during October is shown in the following table:

Table 6 - Consumption of iron and steel scrap and pig iron by manufacturers of ingots, steel castings and iron foundries during October 1955, by type of furnace, in gross tons

Type of furnace or equipment	Steel Ingots and Castings 1/		Steel Castings 2/		Iron Foundries and Miscellaneous Users		Total

\* Includes scrap and pig iron used in Oxygen Steel Process.

1/ Includes only those castings made by companies producing steel ingots.

2/ Excludes companies that produce both steel castings and steel ingots.

3/ Includes consumption in blast furnaces by both integrated and non-integrated mills.

**FOREIGN TRADE 1/**

According to the Bureau of the Census, exports of iron and steel scrap totaled 396,706 gross tons in October and 371,485 tons in September. These figures incorporate revisions in exports for February, April, May, June, July and August. Exports of pig iron during October totaled 2,846 tons and 85 tons in September. Imports of scrap totaled 17,667 gross tons in October compared with 26,390 tons in September. Imports of pig iron totaled 40,574 gross tons in October and 34,688 tons in September. In addition to the above imports of pig iron during October there was 471 tons of sponge iron, valued at \$62,671, imported, of which 74 tons came from Canada and 427 tons from Sweden.
