SODA ASH IN NOVEMBER 2022

In November, soda ash production was 1.01 million metric tons (Mt), a 3% decrease compared with the previous month's production but 6% more than that of November 2021. For the first eleven months of 2022, soda ash production was 10.3 Mt, unchanged from the production for the first eleven months of 2021 (table 4). Ending stocks in November were 346,000 metric tons (t), 16% more than the ending stocks from the preceding month (table 1).

Wyoming trona production in November 2022 was 1.44 Mt, a 6% decrease compared with the trona production in October 2022 and 3% less than the total in November 2021. For the first eleven months of 2022, trona production was 16 Mt, essentially unchanged compared with the revised total for the first eleven months of 2021 (table 1).

Exports of soda ash decreased in November 2022 to 541,000 t, 5% less than those in October 2022 and 9% less than those in November 2021. For the first eleven months of 2022, exports were 5.91 Mt, 5% less than the first eleven months of 2021 (tables 2, 4). Imports of soda ash in November 2022 were 624 t compared with 686 t in October 2022. Soda ash import tonnages

can differ significantly from month to month, but generally are much smaller than soda ash export tonnages (tables 3, 4).

Apparent consumption for November 2022 was 416,000 t, 3% more than the total for October 2022 and 20% more than the total for November 2021. For the first eleven months of 2022, apparent consumption was an estimated 4.37 Mt, 6% more than the revised estimated apparent consumption for the first eleven months of 2021. Apparent consumption can change significantly from month to month mostly owing to variation in the quantity of exports but usually stabilizes over the course of the year (table 4).

All percentages in this report were calculated using unrounded data.
